

LAITH ASSAF

East Lansing, MI | (248) 480-5783 | assaflai@msu.edu | [linkedin.com/in/laith-assaf-](https://www.linkedin.com/in/laith-assaf-) | github.com/Novapool

EDUCATION

Michigan State University, College of Engineering

BS Computer Science, AI/ML | Dean's List x3

East Lansing, MI

August 2022 - May 2027

- **Relevant Coursework:** Cloud Computing & Database Systems (CSE 380), Computer Systems (CSE 325), Computer Organization & ARM Assembly (CSE 320), Data Structures & Algorithms (CSE 331)

EXPERIENCE

PC Technician Intern

Onsite Support Team, Delta Dental

May 2026 - Present

Okemos, MI

- Deployed and configured **150+** workstations (monitors, docking stations, keyboards, mice) across a new corporate office buildout, imaging endpoints via **Ivanti** MDM to enforce standardized enterprise configuration
- Automating ticket creation in **Power Automate** to cut manual intake from the onsite support queue; execute PC imaging, disk backups, and certified drive kills across the full endpoint lifecycle

IT and Media Services Support Associate

MSU College of Osteopathic Medicine

May 2023 - Present

East Lansing, MI

- Configured 100+ classroom technology systems (projectors, audio, video conferencing) across 4 locations supporting **1,200+ students**, resolving **50-70 tickets weekly** at a 5-10 minute average response
- Engineered a troubleshooting framework maintaining **99.5% classroom uptime**, diagnosing network connectivity, display output, audio routing, and **Zoom** conferencing failures within a 5-minute SLA

PROJECTS

Self-Hosted Home Lab Infrastructure | *Linux, Docker, Networking*

2023 – Present

- Administer a rack server (**128GB+ RAM**) running containerized media, game, and **VPN** services under **Docker**, self-managing Linux, networking, storage, and service orchestration as a production-like environment

Nexus - AI-Powered SSH Terminal Management | *FastAPI, Ollama, Docker*

2025

- Built an **SSH** management platform pairing live terminal access with a **locally hosted LLM** (Ollama), translating natural-language requests into shell commands behind a **safety validation** layer
- Implemented real-time terminal I/O over **WebSockets** on a **FastAPI** backend with a Svelte frontend, handling multi-server connection state and session lifecycle; containerized with **Docker**

Bonfire Platform & Ember Framework | *TypeScript, Socket.io, Firebase*

December 2025 – April 2026

- Architected a **multi-room orchestration system** on Express + **Socket.io** with **Firebase** state sync, hosting 4 concurrent games on one **Railway** server with TTL-based cleanup and configurable disconnect handling

SoundSense - Real-Time Audio Classification | *YAMNet, Flask* | **2nd Place, MHacks**

October 2025

- Placed **2nd of 300+ participants at MHacks 2025** building a real-time audio classifier on **YAMNet** CNN and MemryX edge hardware, hitting **95% accuracy** at <50ms latency for hearing-impaired users

LEADERSHIP

Michigan State University | AI Club

Workshop Coordinator & Project Lead

East Lansing, MI

January 2025 - Present

- Delivered 8+ technical workshops on **local LLM deployment** (Ollama, LM Studio) and **PyTorch** fundamentals to 500+ attendees, translating technical setup steps for a mixed-experience audience

TECHNICAL SKILLS

IT & Enterprise: Active Directory, Intune, Ivanti MDM, Power Automate, endpoint imaging, ticketing workflows

Systems & Networking: Windows, macOS, Linux, Docker, VPN configuration, TCP/IP, DNS, DHCP, backups

Scripting & Languages: Python, Bash, SQL, C++, TypeScript

Cloud & Tools: Git, PostgreSQL, Firebase, Railway, Vercel, FastAPI, Flask, Ollama, LM Studio
